What our clients say

From my first engagement with Becky and at each stage of the selection process she kept me informed and updated proactively not just when I chased - which I never did to be fair. As a TA expert - candidate experience is at my core and Becky did a fantastic job in representing the organization just like she worked for them - this is something I have rarely experienced when talking to Recruitment Agencies - during my job search I encountered many agencies - everyone falling short in terms of simple communication, this was never the case with Becky. Becky took her time to understand my drivers, background and experience, and also why I had made some of my moves and also gave me some very valuable advice on how my CV was positioned which was extremely helpful.

What our clients say

I wanted to thank you for your support over the past few months Frankie! You have been amazing and I'm not actually sure I would have followed things through if it wasn't for your support and being there to talk things through whenever I needed, and this carried forward right through to my first day. I've recommended you on the candidate side and equally will do also for any internal recruitment support needed across my network. Thanks again and let's keep in touch.

Frankie and I have worked successfully together in order to fill two vacancies within the Teva Runcorn HR team. Throughout both processes, I found Frankie to be a truly trusted partner, who not only provided good quality of candidates but was also readily available to speak and adaptable to slight tweaks along the way. I would highly recommend companies with relevant recruitment needs to use Oakleaf and Frankie.
